

## سرفصل های دوره CCNA SECURITY :

### Module 1 :Security and Cisco Routers

- Hardening Cisco IOS Devices
- Securing Cisco Routers 1.0 (SECR)
- Cisco Security Manager (CSM) 4.5 Series

### Module 2 :AAA on Cisco Devices

- Securing Cisco Routers 1.0 (SECR)
- CCNA Security Prep from Networkers

### Module 3 :IOS ACLs

- Securing Cisco Routers 1.0 (SECR)
- Reflexive Access Control Lists (ACLs): Overview

### Module 4 :Secure Network Management and Reporting

- Secure Network Analysis Essentials with Case Studies
- Securing Cisco Routers 1.0 (SECR)

### Module 5 :Common Layer 2 Attacks

- Mitigating Layer 2 Attacks
- LAN Switching Lab Demo Series

### Module 6 :Cisco Firewall Technologies

- ASA QLM
- Cisco ASA 5500 Series Software Rel. 8.3(x) Series

- Chapter 3: Network Security Using Cisco IOS Firewalls
- Securing Cisco Routers 1.0 (SECR)

### Module 7 :Cisco IPS

- Chapter 6: Network Security Using Cisco IOS IPS
- Chapter 5: Cisco IOS IPS
- Securing Hosts Using Cisco Security Agent (HIPS) v3.1
- Securing Cisco Routers 1.0 (SECR)

## Module 8 :VPN TechnologiesHide Titles

- Implementing Generic Routing Encapsulation (GRE) over IPsec Using Cisco IOS Software Rel. 15.2 Series

- Diffie Hellman Exchange
- Hardware VPN at Cisco
- Configuring IPsec Site-to-Site VPN
- Site-to-Site IPsec VPN Operations
- Secure Volunteer Game
- CCNA Security: IPsec VPNs
- CCNA Security: SSL VPNs
